

CCM Electronic Engineering offers a wide range of engineering and delivers custom turnkey test and measurement solutions.

We impress our customers with the best possible solutions for assuring product quality in different industries.

We are looking for a **Software Development Intern** for spring 2024.

Joining CCM-ee means you will become part of a team with NI (National Instrument) - certified software engineers, as well as experienced mechanical and electronic engineers. You will have the opportunity to participate in ongoing projects and even lead projects on your own.

As a software development intern, you will be able to practice your theory in the following ranges.

- ▶ Structuring of large software architecture
- ▶ Structuring of complex systems
- ▶ Development in LabVIEW and TestStand
- ▶ Programming of Real Time and FPGA systems
- ▶ Development in PC, PXI and cRIO platform
- ▶ Expertise in Vision Systems
- ▶ Expertise in integration with PLC, PROFIBUS, MODBUS etc.
- ▶ Robot programming
- ▶ Datalogging

If you like us have a burning desire to excel in software engineering, please send your application and resume to Claus Moos at ccm@ccm-ee.dk .
